Hanyang International Summer School

HANYANG UNIVERSITY

Hanyang University (HYU) is a top-ranked private institution in Seoul, Korea celebrating its 80th anniversary this year. Following our increasing number of international students, the university is continually seeking ways to better accommodate the growing needs of our foreign students and faculty in ways that are effective, practical, and harmonious with our local faculty, students, and staff.

To this end, the Office of International Affairs (OIA) is tasked with all matters relating to international cooperation and interaction. At present, HYU has over 800 registered partner universities through which various exchanges are promoted including those among students, faculty, and staff. The OIA plays a major role improving the quality and services in these areas and one of the programs it maintains is the Hanyang International Summer School (HISS).

Over the years, HISS has steadily grown to where it is now one of the largest and most popular summer "edutainment" programs in Korea. There has been a consistent increase in the number of HISS participants and we anticipate the same for this summer. We will continue to do our best to make HISS a memorable and rewarding experience for everyone who attends.
